

Invitation

first international roundtable of RENOINVEST project
Sustainable renovation of buildings with the focus on one-stop-shop
18 April 2024, hybrid mode (in person & online) in English only
Gornja Radgona, Slovenia

Dear Expert,

We are pleased to invite you to the **first international roundtable and study tour** of Renoinvest project on “**Sustainable renovation of buildings with the focus on one-stop-shop**” organised on the **18th of April 2024** at the **MEGRA FAIR** (Hall2) in Gornja Radgona, Slovenia.

The annual energy renovation rate of residential and non-residential buildings should at least double the by 2030 and deep energy renovations should be fostered. To accelerate the transition to a clean energy system, there is a **need to further unlock private financing**, in particular for sustainable energy investments.

The event would like to **assess the existing barriers and find possible solutions by sharing expert knowledge and cross-border experience**. For building owners energy efficient renovation of their buildings requires huge investments due to its long lasting and complicated nature. The **one-stop-shop** represents a holistic and streamlined solution to accelerate the adoption of sustainable practices. This innovative concept not only enhances the efficiency of the renovation process but also **contributes to overcoming financial barriers, making sustainable renovations more accessible** to a broader range of homeowners. Embracing the one-stop-shop approach is crucial in driving the transition towards energy-efficiency.

The roundtable promises to be a dynamic forum where building industry representatives and financial experts from Austria, Hungary and Slovenia will share insights, best practices, and innovative solutions to address the challenges of building renovation.

The official language of the event is English, which can be followed online as well. Please register [here](#).

As we strive to foster collaboration and knowledge exchange, the event will feature engaging **panel discussions and networking opportunities**. We look forward to your participation in this significant event, where together, we can pave the way for a more sustainable and energy-efficient future.

AGENDA / 18th APRIL, 2024	
9:00-11:30	Visit of the Fair Meeting with Slovenian and international stakeholders
11:30-12:00	Registration with coffee
12:00-12:10	Welcome Lajos Vass, Director of development, ÉMI Non-profit Llc. , Hungary
12:10-12:25	RENOINVEST project introduction Dorottya Hujber, coordinator, ÉMI Non-profit Llc. , Hungary
12:25-12:55	The Energy Efficient Mortgage Initiative of the European Mortgage Federation and its implementation in Hungary Gyula Nagy, CEO of MBH Mortgage Bank , Hungary
12:55-13:10	Adaptation of the one-stop-shop in Hungary Károly Oelberg, AACM Central Europe Llc , Hungary
13:10-13:25	One-stop-shop approach in Austria, RenoBooster Ulla Unzeitig, Renowave.at , Austria
13:25-13:40	One-stop-shop in Slovenia and ECO FUND: financial mechanisms for renovation of buildings Ivan Kenda, Eco fund , Slovenia
13:40-14:10	Coffee break with snacks
14:10- 14:50	First results of Renoinvest and key identified issues hindering sustainable renovation of buildings with the focus on one-stop-shop Sabina Jordan (ZAG), Ildikó Raj (Archenerg Cluster), Susanne Formanek (Renowave.at)
14:50-15:50	International roundtable on energy efficiency financing Discussion with invited guests, partners and public <ul style="list-style-type: none"> ○ Ulla Unzeitig, Renowave.at, Austria ○ Károly Oelberg, AACM Central Europe Llc, Hungary ○ Gyula Nagy, CEO of MBH Mortgage Bank, Hungary ○ Ivan Kenda, Eco fund, Slovenia ○ Niko Natek, KSSENA, Slovenia <p style="text-align: right;"><i>Moderated by Wolfgang Amann (IIBW)</i></p>
15:50-16:00	Wrap up and conclusions
16:00-18:00	Study visit An ancient street in Gornji Radgona as a unique hotel

* We reserve the right to modify the program

RENOINVEST PROJECT

The project intends to reflect cross-border challenges and opportunities for sustainable building renovation in the private and public sectors. The **main aim of the project is to develop action plans on smart investments in sustainable renovation of buildings for 2025-2030 for Austria, Hungary and Slovenia by establishing three national roundtables** building on the activities of the Sustainable Energy Investment Forums.

RENOINVEST provides a platform for open dialogue involving key financial, private and public experts through the green finance thematic working group activities to identify barriers to the upscaling of long-term financing instruments and propose improvements to **support the development of large-scale investment programmes in existing private and public buildings**. Three national policy briefs and a cross-border recommendation package will also be delivered.

Assessing the implementation of the Long-term building renovation strategies and documents and reviewing existing financial solutions and market conditions for stimulating financing of energy efficiency improvement of the existing building stock is an important starting point of the project.

Sharing knowledge among project partners, experts, national stakeholders and similar EU projects three international cross-border exchange events with site-visits will be organized in order to showcase collected 50+ good practices and elaborate six case studies to foster the roll out of smart financing possibilities.

The added value of RENOINVEST is that the consortium is providing specific technical and financial knowledge by engaging key actors representing legislative advisory organizations, research institutes, large engineering manufacturers, SMEs and financial experts in three CE countries fostering sustainable investments. The project is carried out under the leadership of **ÉMI Non-Profit Llc. for Quality Control and Innovation in Building**, with the collaboration of **SolarTech-Investment Ltd (Archenerg Cluster)** from Hungary, the **Slovenian National Building and Civil Engineering Institute (ZAG)**, the **Chamber of Commerce and Industry of Slovenia (GZS)**, the **RENOWAVE.AT** Innovation Lab for climate neutral renovation, and the **Real Estate, Construction and Housing Institute (IIBW)** from Austria.

The RENOINVEST project is co-funded by the European Union under the LIFE programme.
